

# ACME UK INC LIMITED

## Extension Tube

Acme offers one of the most extensive product portfolios in healthcare industry. We are today the front runners in research, development and commercialization of high quality Medical Devices with the focus on refining the health of patients' lives. We believe in revamping the healthcare industry through innovation and technological breakthrough products. With our research

based approach, we strive for an innovative, developed, and customized products and processes.

- Extension tube provides separation of administration and insertion sites:
  - Minimizes mechanical irritation of blood vessel being used for access
  - Reduces thrombotic events such as thrombophlebitis
  - Increases patient comfort
- Ideal for administering contrast medium/fluids during imaging procedures that require patient to enter a gantry; e.g. CT and MRI Scans
- High quality kink-resistant tubing with smooth inner surfaces for laminar, non-turbulent flow
- Available in various tube lengths based on customer requirements
- Available in low priming volume extensions for high pressure infusions.
- Non-pyrogenic, Sterilized by Ethylene Oxide.

**Packing Details:**

<b>Description</b>	<b>Box Size</b>	<b>Quantity Per Box</b>
Unit Packing	Blister	1
Secondary Packing	LD Pouch	20
Tertiary Packing	380X290X420 MM	200

\*Gross Weight of Tertiary Packing 5.1kg

**\*Gross weight will be vary as per custom device/packaging**
